## Business & Industry In North Canton

### Business & Industry in North Canton...

Ever since the Hoovers moved their fledgling leather business to the heart of North Canton, formerly known as New Berlin in 1873, it has been the hub of the North Canton industrial community. The Hoover Company has prospered world-wide in its manufacture of vacuum cleaners.

Many other companies that took root in North Canton and the adjoining industrial parks have also grown to nationwide proportions. Diebold, Inc. which employs over 700 locally, is a world leader in the manufacturing and sales of automatic bank teller machines (ATM's) and they have introduced them all around the world. Other North Canton area employers of note are Portage Electric, ASC Industries, Wilcof-Morris Steel, Alpha Enterprises, Suarez Coporation, GE Capital, Harry London's Candies, Kohler Coating Machinery Corp, LECTROtherm Inc., Liquid Control Corp., Paarlo Plastics Inc., Seco Machine, Sun States Plastics, Xcel Mold & Machine, Xpress Print Inc., and many more.

North Canton also thrives on many dedicated smaller and family owned businesses.

The foreign trade zone with full abatement powers, creates an exciting environment and opportunities for future economic growth in the area. Foreign or domestic material or merchandise may be moved into the FTZ without being subject to U.S. Customs Duties on the merchandise. With world trade increasing at breakneck speed, companies interested in competing in the global markets are encouraged to investigate the advantages of relocating to the North Canton Area.

The Stark Development Board, Inc. is a non-profit corporation engaged in economic development activities in Stark County. Their mission is to retain, expand, and attract business investment in the area. SDB coordinates its services and activities with all the Chamber of Commerce in Stark County.

The environment for manufacturing as well as small business starts and expansion is very positive in North Canton, Ohio.

## Introduction

Windsor Medical Center, Inc. was established in 1961 and provides both assisted living and skilled rehabilitation services. We are dedicated to providing unsurpassed long-term or short-term care for you or your loved ones. Our facility is equipped to provide a comprehensive array of medical care in an environment that is supportive, caring, and comfortable. We are located conveniently in North Canton, Ohio minutes from I-77.

## Our Mission

**Windsor's mission is to provide a facility that can attend equally to the mind, spirit, and body, in a care setting that provides a quality, personal, home-like atmosphere.** It is important to involve the community and family in the aspects of care at the facility, while maintaining standards above those of normal licensing. This mission is as important today as it was in 1961!

## Facility History

Windsor Medical Center, Inc. initially opened its doors for business in October, 1961. At that time, it was one of the few skilled nursing facilities in Stark County built expressly for that purpose. W. Phillip McConnell, founder and initial administrator, had recently concluded his training in hospital administration, and he recognized that a need existed for professionally delivered convalescent and geriatric care. The facility accomplished a 100% census within the first two years of operation.

Since that time, six additions have taken place, the last being a 50

apartment assisted living unit. The skilled nursing services unit is comprised of 41 beds in private and semi-private accommodations. The future goal at Windsor is to provide a full range of retirement services regardless of special needs or requirements.

The years have proven that the choice to locate in North Canton has been fortunate indeed. Growth in Northern Stark County has outpaced most of Ohio in the past three and a half decades. Additionally, this growth has provided a community blessed with minimal problems and optimal opportunities. Individuals locating at Windsor will find that virtually all of their needs and desires can be met within a few miles of our facility.

[Follow this link for profiles of our senior medical and administrative staff.](#)

---

## **Our Approach and Philosophy**

Since long-term care is comprised of people who need little in the way of assistance to those who require almost constant monitoring and care, our services must be both comprehensive and selective. The options begin with assisted living at "**the Colonies**" and encompass a complete skilled care program at "**the Medical Center**." Click this link to find out more about our assisted living facility, "the Colonies." Click this link to find out more about our skilled nursing facility, "the Medical Center." Residents are admitted by their personal physician or our medical director in those instances where their physician will not attend. Assessment of abilities determines care level and cost. Initially, these assessments involve family or other responsible parties, and these people are encouraged to participate in care planning throughout a resident's stay. Most diagnoses may be accommodated at Windsor.

Affordability has always been a key to serving the community. In 1961 there were no Federal or State programs to assist in funding health care. Even after the Medicare and Medicaid programs were created, Windsor chose to remain in the private pay arena. It was apparent that certification in these programs would mean that subsidies by private pay individuals would be necessary, and this would increase that actual cost to these individuals. Each time new care options are considered, cost of service is an extremely important consideration. The facility requires private pay funding (personal funds or long-term care insurance funding where applicable). However, it is our desire to maintain a pricing structure that the average middle income individual can afford.

---

## **For Detailed Information**

Appointments for tours or general information are available at hours convenient to residents, family members, or responsible parties. Posted visiting hours are 1 to 8 P.M. daily and as arranged where special needs exist. Windsor is located at 1454 Easton Street, NW in North Canton between the Hoover Company and Walsh University. Please contact us by phone, mail, or use the link below to contact us by E-mail. Click this link to access a printable map to our facility.

## North Canton Heritage Society

200 Charlotte St. N.W.  
Suite 102  
North Canton, Ohio 44720

---

### **Mission Statement**

The purpose of The North Canton Heritage Society, founded in 1972, is to:

*PROVIDE* information on the history of the Community to all who are interested.

*ASSIST* our schools' teachers as they tell stories of our world, country, state and Community's heritage.

*EDUCATE* the public about the importance of preservation of our historic and architectural resources.

*ENCOURAGE* historical research.

*PROMOTE* interest in heritage through displays, programs and other forms of Community outreach.

*SERVE* the Community by being an active participant as our history is being made today.

*PROTECT* the many photographs, documents and artifacts donated to the Heritage Society by interested citizens to be used to tell about our history.

**A Strategic Plan setting short and long range goals for the organization was approved by the North Canton Heritage Society, Inc. membership at the Annual Meeting in March.**

The North Canton Heritage Society is a member of the Ohio Historical Society, Ohio Association of Historical Societies and Museums, the Hoover Historical Center, and the North Canton Chamber of Commerce

## ABOUT US

The North Canton Police Department is a full-time professional organization that has 25 full-time officers, i.e., the Chief, Lieutenants, and Patrolmen, who work a 40-hour week in 8-hour shifts around the clock, including weekends and holidays. Assisting the regular officers are part-time patrolmen. The department is located in the lower level of City Hall at 145 North Main Street. North Canton Police Department maintains its own dispatch communications center and operates a Law Enforcement Automated Data System. A Chief Dispatcher, 6 regular Dispatchers, and 3 part-time Dispatchers man the dispatch center. A Police Diversion Counselor and an Administrative Assistant are also part of the police team. The Department covers the school crossings with eight crossing guards and two substitute guards.

North Canton Police Department serves a population of 16,369 city residents located within six square miles and patrols approximately 81 miles of streets. Courteous officers maintain high visibility to enforce traffic laws and deter crime. Members also patrol the city on mountain bikes.

The City of North Canton Civil Service Commission provides for the procedures on appointments, promotions, transfers, and dismissals for full-time officers and dispatchers.

Designed and Maintained by: [The Karcher Group, Inc.](#)

In 1998 the previously all part-time North Canton Fire Department became a combination department consisting of a part-time Chief, Assistant Chief, and Fire Prevention Chief, one full-time Firefighter/Inspector/EMT, and thirty-one part-time officers and firefighters. Three additional part-time personnel were subsequently promoted to full-time status, bringing the full-time complement to four by mid 2002.

In October of 2002, the North Canton City Council approved a change in the Codified Ordinances that eliminated the part-time status of the Fire Chief and created a full-time position. In a subsequent action, Council eliminated the position of EMS Chief effective upon his retirement at the end 2002.

Beginning in 2003, the Fire Chief will be responsible for the operation of the Fire Department and the EMS. This action will result in the 'streamlining' of the management structure of the respective departments, and encourage 'cross training' of interested personnel. We presently have nine Firefighters who are Emergency Medical Technicians and two Firefighters who are Paramedics who provide assistance support for the EMS when called.

The equipment of the North Canton Fire Department and Emergency Medical Service will include three engines, one 105' aerial ladder, one rescue vehicle, one four-wheel drive mini-pumper, a van, an automobile, a chief's vehicle, two medical immediate response vehicles, three fully equipped ambulances, and necessary support equipment.

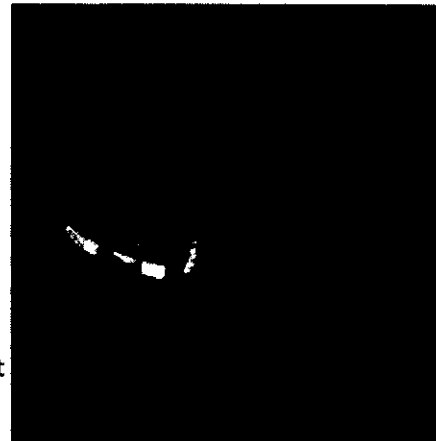

We are responsible for fire suppression, medical emergency service and life support, rescue, and fire prevention activities, including fire safety education, within the City of North Canton.

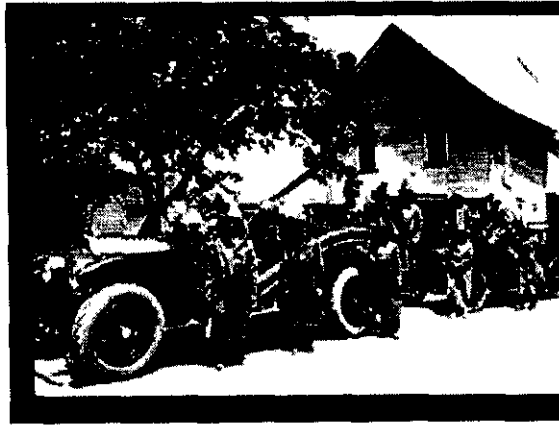

Our Fire Prevention Bureau has continued to develop a Public Fire Safety Initiative that includes fire safety inspections of existing commercial structures, residential apartment complexes and public buildings, including city owned buildings, churches and educational facilities. Additionally, they work in concert with the city Building Department to assure that new construction and renovation projects comply with the applicable fire and safety codes.

We have continued to develop a 'Confined Space Rescue' capability that includes equipment and trained personnel. We have also recognized the importance of personnel trained in responding to situations that may involve Hazardous Materials. This discipline often requires a plan of attack much differently than a conventional fire or emergency response. Additionally, pursuant to the requirements of NFPA 1500, we have continued in the development of a 'RIT' or Rapid Intervention Team whose responsibility is to stand by, prepared for immediate deployment by the Incident Commander in the event of an emergency situation such as trapped firefighters or equipment failure.

We have four personnel that are Certified Fire Service Training Instructors. They develop and supervise an on-going training program that meets or exceeds all facets of training required by the State of Ohio, conducting much of it in-house with occasional off-site evolutions.

In a time when there is much national attention to emergency preparedness, the well-being and security of our community depends in large measure on the skill and dedication of emergency service providers. It is imperative that we continue to meet the high standard of Fire, Emergency Medical Service, Fire Prevention and Rescue response that our citizens expect and deserve. We are fortunate to enjoy the partnership of a responsible City Council and City Administration and with the continued support of the community we accept the challenge of the future with optimism.
